FRONT LINE

Who we are and what we do...

- * Frontline manufactures high quality gloves as well as protective duty gear for the following but not limited to fields. Law Enforcement, Military, Fire, and Public Safety.
- * Frontline also manufactures gloves for the following applications. Cut resistant gloves, Flight Gloves, Tactical Gloves, and more. The Raptor disturbance control suit is a must for disturbance control situations.
- * Made in Pakistan, Frontline has implemented strict quality control based on the philosophy that quality is the lifeline of the company. We offer high quality gloves, at a reasonable price to help you, our customer focus on your duty, not your gear.

Custom Orders...

- * Frontline gladly accepts suggestions and will offer to make any changes you may want to be made to any one of our existing gloves, to better suit the needs of you or your client. We strive for 100% satisfaction, Guaranteed.

Riot Protective Suits

The #1 Selling Riot Suit in the World

The **FRONT LINE** Modular Hard Shell Crowd Control System is the ultimate high-threat level riot control, domestic disturbance, and cell extraction suit. design provides substantial protection from blunt force trauma without sacrificing the fit or comfort. The suit is lightweight and ranks highest in easy to put on or take off in a moments notice. The front and back hard shell panels have a modular flex design allowing for all shapes and sizes to fit comfortably with out sacrificing much needed mobility. The forearm guard offers a much more comfortable elbow portion of the pad, which allows more flexibility. The knee/shin guard has a non-slip surface, which keeps you planted in position.

Supreme Upper Body Protection

Hard Shell Forearm/Elbow Protectors

Thigh/Groin Protector

Adjustable Knee/Shin Guards

101

Riot Protective Suits

Description

This product is composed of the following parts:

Art.21011(Trunk protector)

This mainly composed of 2 layers,

1-Outer hard poly carbonate plastic plates both at front and back.

2-Shock absorbing padded layer.

1-Outermost front and back plates m/o Hard poly carbonate plastic provides extensive protection and resistance to the external violence. These plates are easily attachable (and detachable) with the suit with the help of Velcro. Front plate is anatomically curved to provide maximum protection to chest & abdomen. Both front & back armour plates has developed strengthening features against outer strike.

2-Shock absorbing padded layer is made of 2 materials, thermopole & eva foam. Eva foam is firmly glued on both sides of thermopole and Stretchable Lycra is pasted on outer side of this layer. Its thickness is 15-17mm.

This layer is distributed with multi shaped pads which provides easy mobility & closiness to the body. Outer hard plastic plates can be detached when needed and internal protection can wear without outer plastic plates.

21013 biceps & forearm protectors set

Biceps protector is composed of hard poly carbonate shell with adjustable eva rubber on inner which is covered with polyester lining.

Elbow and forearm protector is also composed of the same composition of biceps protectors.

Both protectors are joined with adjustable plastic hook & web straps. Both protectors are provided elastic straps with Velcro to attach firmly with arm.

21014 (Thigh, groin and pelvis protector)

Outer thigh shells of made of hard poly carbonate plastic. Eva foam covered with polyester fabric and sewed on internal side of thigh protectors. Adjustable Elastic straps to attach pelvis & groin protectors.

Groin protector is m/o hard plastic base and foam outside it attached with pelvis protector through Nylon web and plastic buckles.

21015 (knee & shin protector)

Shells of knee & shin protector m/o hard poly carbonate plastic.

Internally stitched eva foam with polyester mesh, elastic straps with Velcro to perfect fit, detachable and adjustable protector for ankle joint and foot roof.

WEIGHT:

Total Weight of the Suit is 4.500 kgs per unit.

PACKING:

1 Suit is packed in box or as advised by the buyer.

Note: Special Packing bag available on request only.

Available Sizes:
MD/LG - XLG/XXLG (Special Order)

The most comfortable hybrid knee pad ever built specifically for Law Enforcement or Military use... just so happens to offer some serious impact protection. They have a unique hybrid construction that combines high and low density materials to deliver maximum "cush", while the contoured ergonomic shape offers superior knee pad support. Part of the secret is its GEL and GEL foam center cores which contain two types of shock-absorbing gels, bonded together to create unsurpassed comfort. The GEL also absorbs body weight and disperses it within the pad.

- Heavy-duty, hard-shell composite cap which is truly NON-SLIP and plants you firmly on any surface.
- The GEL cores and the unique caps then work together to produce the best possible knee zone protection from blunt force trauma.
- Perforated breathable neoprene coated with silicon at the tops of the pads hug the leg above the knee.
- 1000 denier nylon Cordura® braces and protects the rest of the knee area.
- Both straps feature silicone coated strips to prevent pads from slipping in motion, and reinforced rivets.
- Available in Black

Hard Shell Pads

- Hard shell polyurethane thermoplastic non-slip caps
- Reinforced foam padding for shock absorption and wear comfort
- Two adjustable elastic straps with Velcro® and D-rings for the most secure fit
- High tenacity, air textured DuPont Ultra Cordura® nylon outer materials

SIZES: XXS-XXXL

BROAD, ALL-INCLUSIVE PRODUCT LINE
Frontline provides hand protection for law enforcement, military, shooting and other tactical applications.

INTENTIONAL RESEARCH AND DEVELOPMENT
Each product development series begins with a general survey of the market, gathering input from end users and observation in the field. Then field testing is conducted, final adjustments made and a product is ready for introduction to the market.

THE RIGHT MATERIALS FOR THE RIGHT JOB
Frontline incorporates high grade materials to enhance the features required for each application. For example, our duty gloves are made of sheepskin leather to provide an enhanced sense of touch while conducting a field search.

FIVE POINTS OF INNOVATION - TASK SERIES

ALL MODELS IN THE FRONTLINE TASK SPECIFIC LINE FEATURE THESE FIVE INNOVATIVE FEATURES

TOUCHSCREEN-COMPATIBLE KNUCKLE FOR USE WITH ELECTRONICS

The knuckle pad provides the ability to quickly swipe the phone to take or send a call without having to remove gloves or worry about contaminating the device.

FRONTLINE SIGNATURE ERGO-CUTTHUMB PATTERN FOR AN ACCURATE AND COMFORTABLE FIT

Conforms to the natural curvature of the hand and offers greater dexterity and freedom of movement than a "single palm pattern". Because we have opposable thumbs, a single piece palm bunches up and twists on the thumb when the hands are clasped.

ARTICULATED STRAP

Accommodates a larger watch as it is angled away from the wrist.

FRONTLINE PATENTED CUT-RING

This feature allows for the optional removal of the index finger for trigger control, without unraveling the remaining edge.

FOCUS ON FUNCTIONALITY

Frontline offers a full line of gloves designed specifically for use with touchscreen devices. Each glove is designed with purpose and intention based on the job at hand. Our newest Touchscreen gloves feature embedded ATS™ technology in the index knuckle allowing an officer to access a touchscreen device without worry of contaminating their device during grimy situations.

139

PATROLMAN TOUCHSCREEN DUTY

- Performance-fit gusset back to improve overall flexibility
- Perforated leather for cooling or ventilation for all-day comfort
- Soft, sheepskin leather materials for increased tactility
- Neoprene cuff, closure-less design for easy on and off application
